### **DETAILED ACTION**

1. According to a preliminary amendment filed on May 26, 2006, the applicants have canceled claims 17, 26, 27, 30 and 31 and furthermore, have amended claims 3-6, 10-16, 18-25, 28, 29, 33-38, 40 and 42.
2. Claims 1-16, 18-25, 28, 29 and 32-42 are now pending in the application.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 3 and in part 1, 2, 4-7, 10-16, 18-25, 28, 29, 32-39, 42, drawn to Compounds of formula Aii, a process for preparing these compounds and pharmaceutical composition containing these compounds.

Group II, claim(s) 8, 9, 40, 41 and in part 1, 2, 4-7, 10-16, 18-25, 28, 29, 32-39, 42, drawn to Compounds of formulae Bi and Bii, a process for preparing these compounds and pharmaceutical composition containing these compounds.

Group III, claim(s) In part 1, 2, 4-7, 10-16, 18-25, 28, 29, 32-39 and 42, drawn to Compounds of formula A other than defined above for groups I and II above, a process for preparing these compounds and pharmaceutical composition containing these compounds.

4. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no common core which in the Markush Practice, is a significant structural element shared by all of the alternatives; see PCT Administrative Instructions Annex B

Part I (f) (i) (B) (1). In the instant case, variables R2, R3, R4, R5, W, Y and n are critical for the common core of instant compounds.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. It is of note that if applicants elect group III, they must specify the values of variables R2, r3, R4, R5, W, Y and n since this group is subject to further restriction based on the values of these variables.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
